

Invite you to a Discussion and Interview:

Insights into Organizational Risk Assessment

**OCTOBER 20TH, 2020 | 12:00-1:00 PM
LUNCH HOUR WEBINAR**

Meet Leigh Ann Yates, AIC, MBA, CPHRM, DFASHRM and Dan Corcoran, President of SafeQual as they follow-up their July 22nd ASHRM forum article “Insights into Organizational Risk Assessment” with a Zoom meeting where AHRMNY members can ask questions.

Improving healthcare Risk Management processes and systems is ongoing. In the article, Leigh Ann describes her method of analysis for making optimal choices in the pursuit of improvement. It is based on the American Society for Healthcare Risk Management (ASHRM) Enterprise Risk Management (ERM) domains: operational, clinical/patient safety, strategic, financial, human capital, legal/regulatory, technology and hazard. The process includes looking at infrastructure and business model design, and identifying internal and external resources that will help position an organization for success.

During a moderated discussion, Leigh Ann will expand on topic areas, answer your questions as they pertain to the content, and together with Dan Corcoran, to better target your next internal analysis process with an aim towards a smoother execution of your risk management plan.

The article is available at this link:
