

Dan Corcoran, HACP
SafeQual | Founder & CEO, Healthcare Software Innovator
AHRMNY | Board Member
ASHRM | Education Content Development Committee Chair

Dan Corcoran is the founder and CEO of SafeQual, a software and systems integration company that provides one SaaS solution that accelerates collaboration, process improvement, and accountability across the management of risk, quality, patient safety, compliance, and employee health and safety processes in hospitals.

SafeQual simplifies and transforms the way healthcare organization systems and people collaborate in the pursuit of zero patient and employee harm.

Dan's vision and team are focused on working toward positioning every hospital and clinic to ethically, efficiently and safely deliver healthcare excellence to all patients.

He and his team have deployed over \$150 million successful process improvement solutions, enabling client employees around the globe to make intelligent, reliable data-driven decisions as part of an organization's goal to achieve business transformation.

In Healthcare, Dan's industry leadership includes contributions to ASHRM as EDC Committee Chair, AHRMNY as board member, HFMA Metro NY Chapter as Board Member and Chair of the Technology-Education Committee, as a writer for ASHRM, and Dan also speaks on PSSM, HRO, QAPI, and AI-related issues in healthcare quality within these organizations.
