## PROGRAM

---

This educational and networking event will provide risk management professionals with a real-time reenactment of an actual mediation. Following the mock mediation, a presentation on the Healthcare Malpractice Claims Study recently published by AIG will take place. This study will highlight current malpractice trends and how this impacts the patient, the physician, and the insurance carrier.

AHRMNY hopes this program will be an informative, interesting and enjoyable experience in understanding the usefulness of mediation as a tool for early resolution of claims and gain a greater insight into current malpractice claim trends.
