Getting Your Outpatient Practice Functioning: Risks, Tips and Insights

AHRMNY and our Sponsors are very excited to present this Educational Webinar with analysis of (1) Reopening hospital-based outpatient clinics; (2) Incorporating telehealth into those clinics; and (3) The legal ramifications.

Our distinguished speakers will provide crucial risks, tips and insights to consider before opening outpatient areas in hospital-based clinics and offices. Our panel of expert speakers will discuss workflow, required changes, training and necessary documentation. They will also review incorporating telehealth into your outpatient hospital practices, and legal perspectives surrounding the opening of these practice locations.
